XBRL DATA OVER REPORT!!

No Financial Data Standardization

- No standardization in Business Reporting.
- Reports prepared in Word, Excel, PDF etc.
- Annual Reports prepared in various layouts.
- Horizontal/Vertical Presentation.
- Different presentations in Schedules, Notes,
 Grouping
- No standardization makes financial analysis very difficult.

What is XBRL?

- XBRL stands for Extensible Business Reporting Language.
- XBRL is a data-rich dialect of XML. XML is universally preferred language for transmitting information via the Internet.
- ▶ XBRL was developed specifically to communicate information between businesses and other users of financial information, such as analysts, investors and regulators.
- ▶ XBRL provides a common, electronic format for business reporting.

Why XBRL?

- ▶ XBRL improves the quality of data reported as there are build-in validation checks in the XBRL taxonomy & business rules.
- NBRL enables better regulatory control over the companies as their data can now be analyzed quickly and accurately.
- Improved Early Warning System, Money Trail, Related Party Transactions, Sophisticated Technical Scrutiny, etc could be designed.
- ▶ Enables development of Single Reporting Platform for all Govt compliance by companies.
- ▶ RBI and SEBI are also implementing XBRL in limited way for their regulatory Reporting.

What XBRL does!! Place for each item

Now Very Easy to get information on

- Deposits Accepted or Renewed.
- Deposits Matured & Claimed but not paid.
- Interest on Deposits Accrued & Due but not Paid.
- Share Application Money Received.
- Share Application Money Returned.
- Unpaid Dividend.
- Details of Share Capital held by Foreign Company.
- Number of Shares bought back during the year.
- And many more items....

XBRL Process

- Map a/c concepts with Taxonomy elements.
- Instance Document Generation.
- XBRL Validations, inbuilt in the software.
- Pre-scrutiny, Server validations by MCA.
- In-built Viewer to check accuracy.
- Separate e-Form 23AC & 23ACA for filing XBRL attachment.
- Submit e-Forms on MCA portal.

XBRL Implementation in MCA

MCA's XBRL Circular

- Ministry has mandated compulsory filing of Financial Statements (Balance Sheet, Profit & Loss Account, Director's Report, etc) filling in XBRL format for:
 - All Listed Companies and their Indian Subsidiaries
 - All companies with paid up capital more than Rs. 5 Crore
 - All companies with turnover more than Rs. 100 Crore
- Power Companies, Non Banking Finance Companies, Insurance Companies and Banking Companies are presently exempted from XBRL filing.

MCA Initiatives on XBRL

- Notification of XBRL Rules, 2011, Taxonomy and new e-forms.
- MCA has developed a validation tool to accept only complete and accurate XBRL document on MCA21 portal.
- This validation tool is based upon MCA mandatory requirements and Business Rule.
- Validation tool also contains a XBRL viewer to enable filer to see the 'human readable' format of XBRL document.
- Validation tool has been developed and is under final stages of testing with actual data.
- Filings would start once Validation tool is hosted on the Portal.

XBRL Authentication

- Practicing CA/CS/CWA to certify integrity of Balance Sheet, Profit & Loss account filed in XBRL format.
- Authentication of XBRL document as per comments/ suggestions from ICAI & ICSI.
- Tagged financial statements "fairly represents, in all material aspect, audited financial statement of the Company".

Issues raised by Stakeholders & MCA's Response

- XBRL document may not exactly match with the Financial Statements as adopted in the AGM.
- □MCA: Such accounting concepts could be clubbed with 'others' tag with a footnote for clarification.
- Revised XBRL filing in case of errors may be allowed this year.
- □MCA: At present, MCA validation tool will not allow errors
- MCA provides free XBRL conversion tool to stakeholders.
- □MCA: TCS has been asked to submit proposal, meanwhile conversion software prices have reduced significantly.

Issues raised by Stakeholders & MCA's Response

- What about XBRL filings next year when as Revised Schedule VI becomes applicable.
- □MCA: XBRL filing process, methods, concepts, Software, etc all remain same, only taxonomy changes that will be notified after November.
- Last date for XBRL filing may be extended from 30.11.2011, being first year of XBRL.
- □MCA: The issue will be considered at appropriate time.

Training and Education

- ▶ XBRL being a new initiative, training and awareness has been accorded high priority by MCA.
- Website contains sufficient contents and material for general stakeholders as well as advanced users (http://www.mca.gov.in/XBRL/index.html)
- ▶ Training programmes are being organized by professional institutes ICAI and ICSI, Industry bodies like CII, ASSOCHAM with active support of MCA and TCS. MCA is actively participating in Web-cast Seminars, IGNOU center and other programs.
- Trainings have also been organized for MCA officials, RD and RoC offices. MCA is working to enable RFO's and CFC's to become resource and facilitation centers for XBRL filing.
- ▶ XBRL vendors are also organizing training programmes for users.

Software Vendors of XBRL

- A financial statement is converted into XBRL document using XBRL software tools.
- MCA has conducted a series of meetings with XBRL vendors in market to rationalize the prices of XBRL conversion tool.
- Prices of XBRL software has significantly come down, resulting in low compliance cost to companies.
- An indicative list of XBRL vendors (with prices of their tool) is being updated on the MCA website for convenience of stakeholders.

Future Plan for XBRL Filing

- It is proposed to mandate XBRL filing for all companies from FY 2011-12. Cost Audit Reports would also be filed using XBRL.
- As accounting and filing requirements for small and medium companies, LLPs, etc would be significantly lesser, it is proposed to develop separate taxonomies for such companies.
- Proposal to allow extensions (facility to add new elements in the taxonomy by company) from FY 2011-12 is under consideration. Allowing extensions would enable MCA to get industry specific detailed information from companies.

Scope of Reporting

- 1 -Balance Sheet
- 2 Schedules related to Balance Sheet
- 3 -Profit and Loss Statement
- 4 -Schedules related to Profit and Loss Statement
- 5 -Cash flow Statement
- 6 -Notes to accounts
- **6.1** -All notes (every individual note) Block Text tagging

Auditor's Report

Auditors information

Whether auditors' report has been qualified or has any reservations or contains adverse remarks

Auditor's qualification(s), reservation(s) or adverse remark(s) in the auditors' report

Complete auditor's report, including annexure Block Text tagging

Directors' Report

Details of directors signing board report

Director's comments on qualification(s), reservation(s) or adverse remark(s) of the auditors as per Board's report

Complete directors report- Block Text tagging

Notes to A/cs - Detailed Tags

Related party transactions

- Name and CIN of holding company
- Name and CIN of the related party
- Description of nature of related party
- Description of related party transaction
- -Amount of related party transaction
- 23 Outstanding balances for related party

MCA Taxonomy

C&I Taxonomy

- General purpose (Manufacturing & Service sector) based on Schedule VI requirements and Industry Practice.
- Architectural features of IFRS Gen. Purpose Taxonomy 2006.
- Developed through consultative process.
- Banking, Insurance, NBFC and Power sector taxonomies are under development.
- Taxonomy for SME and LLP is also under development.
- Taxonomy for Cost Audit Reports is under Development.

XBRL Tags

- One of most commonly used terms.
- Represents a Line Item.
- Represents a Concept.
- Gives Data Identity & Context.
- Definition, labels, references & time period.
- Opening tag.
- Closing tag. <city>New Delhi</city>
- Tag can be identified by software.
- Tag line: Tagged Once, Use Always.
